

## 10-minute presentation

Now that you have a sense of who you will be talking to, and where you'll be sharing, here are some ideas for pulling together a 10-minute presentation. Talking to others about your experience as a sponsor might be new for you, but you can do it! Thousands before you have done it too, and we will be praying for you. The most important thing is to pray and speak genuinely from your heart. Here's what a 10-minute presentation might look like:

### **4 MIN Show a video**

### **3 MIN Share from your heart about your own experience as a sponsor**

Start by sharing a statistic that shows why sponsorship and caring for children in need is so important:

- Nearly 26,000 children die every day, most from hunger and treatable illness
- Every 14 seconds another child loses a parent due to AIDS

Give a brief description of World Vision

Share about your sponsored child and why you felt called to become a sponsor

Share about how sponsoring a child has affected you

Share what sponsorship does for a child and their community

Relate the biblical basis for serving the poor, helping children in need, or putting faith into action

Explain where to find the sign-up table

### **3 MIN Have your church leader pray and invite people to stop by the sign-up table to choose a child to sponsor**
